

Harding Advanced Fire System Training Session

Harding will be hosting a hybrid in person and online training session for the Axis AX Advanced Fire System.

All attendees must have access to a laptop, phone, or tablet to complete the quizzes.

In-person attendance:

Attendees must provide their own travel and accommodations to the Harding office in Edmonton, Alberta, Canada, which will require a passport when arriving from outside of Canada.

Virtual attendance:

Attendance is through Microsoft Teams. A camera is not required, but a microphone is recommended for the attendees to ask questions. We request that each attendee connect to the Microsoft teams meeting using their own account as it will serve as confirmation on what days they will be attending. A microphone should be mandatory.

Purchase of a training kit is mandatory when attending a virtual session

- US:
 - Harding Advanced Fire Training DEMO KIT (UL-10):

- Canada:
 - Harding Advanced Fire Training DEMO KIT (ULC-4):

An additional discount of 10% will be added to your first Harding Advanced Fire Training DEMO KIT order. Only 1 training kit needs to be purchased per registered company, and may be reused for future virtual training sessions.

A camera is not required, but a functioning microphone is mandatory for the attendees to ask questions and general participation.

We request that each attendee connect to the Microsoft teams meeting using their own account and it will serve as confirmation on what days they will be attending.

Type: In Person and Virtual Hybrid (specify during registration)

Cost: In Person - \$750 USD/ \$1000 CAD per session

Virtual - \$750 USD/ \$1000 CAD per session

Session cost includes up to and a maximum of three attendees per company per training session dependent on course seat availability.
